GAINESVILLE, FLORIDA, WEDNESDAY, AUGUST 11, 1909

RAILWAY COMPANIES TO ADVERTISE STATE

Will Distribute Descriptive Literature Throughout the Middle and Northwestern States.

The Jacksonville Metropolis says when the crowds head for Florida next winter the hotel men of the State will not be able to claim all of the credit for attracting the visitors, as the railway officials of the many different routes which lead to this section of the country have already inaugurated a plan of advertising which will be of immense value to the State. Agents of several companies are now in the State and are gathering information which will be used in pamphlets and books descriptive of Florida, its pleasures and resources. Photographs are being collected from every town and resort worthy of mention, and judging from the preparations the approaching season will see a greater amount of Florida literature in the hands of travelers than ever before.

Not alone will the pleasure of living in the State during the winter be thoroughly handled, but the commercial possibilities of the State will be carefully considered and described, with a view to interesting permanent settlers. While a generous amount of advertising has been carried on in the past, the work has naturally depended on owners or proprietors of hotels and resort places, and the consequences were that the moneyed classes, or those enabled to live without work, who looked on Florida as a place to escape a few months of

cold weather, were the only ones who knew anything of the State.

The wonderful progress of Florida in commercial and industrial lines, its increased manufactures, rapid development of farm lands and hundreds of other possibilities, have made it incumbent on the railways to begin an active campaign of publicity among the farmers and homeseekers of the North. To this end the literature which will be distributed in the North this winter will fully cover these latter subjects, and there is no doubt that hundreds of real settlers and home-builders will be attracted to the State.

For a number of years the Florida East Coast Railway has had agents in the Northwestern section of the country whose efforts have been the means of causing hundreds to visit Florida, and although the agents have devoted most of their time to explaining the virtues and values of the East Coast, the homeseekers, after reaching Jacksonville, chose their own route of travel, and every part of the State was benefited by receiving a share of the travelers.

This phase of the movement has not passed unnoticed by the other railways, and now a strong concerted action will be made by all of the lines leading to Florida. It is proposed to work amongst the thickly settled farming regions of the Middle and

East Coast Canal Will Be Beautiful Inland Waterway

The St. Augustine correspondent of The Times-Union says reports from those who have recently made an inspection of the work of cutting the last stretch of the East Coast canal between this city and Jacksonville state that the cutting is progressing very rapidly and unless unforeseen obstacles are encountered the work should be completed and the canal opened to Jacksonville before the close of the present year.

The Florida Canal Line Canal and Transportation Company has certainly accomplished wonderful work in the completion of this beautiful inland waterway stretching the entire length of the Florida East Coast and the last stretch between this city and the St. Johns river will be even faster accomplished than other sections.

The company has two powerful dredge boats and four excavators at work on this last cut with a large

force of men at each machine, so it can be seen that no delays are being tolerated. The company will also have constructed a large dredge with a twelve-inch pipe. This huge machine will be put to work as soon as completed, starting from the mouth of the St. Johns river, working south through Pablo creek, deepening the canal at all points where shoal places are encountered.

This canal when completed within the next six months will be the culmination of an expensive undertaking which it has consumed more than twenty years in accomplishing, and it will be one of the most beautiful and wonderful stretches of inland waterway along the whole Atlantic seaboard. For winter cruising it can not be equaled anywhere on earth and for protection to craft from the dangers of storm on the outside course it will prove invaluable in future years.

Work is Being Rushed on The Government Building

Managers of the King Lumber Company, is certainly rushing some of the Government building, for they are now placing on the third and ceiling floors of the structural steel work of this mammoth building, which puts it up some in the air.

Just as soon as the second story of steel has been placed, which will be the first of next week, the

work will be a curiosity for a number of the people here to witness the throwing of hot bolts and how they are handled about this class of work.

The first consignment of brick will arrive the first of the week, and as fast as they are unloaded bricklayers will be secured to place them in position. By the latter part of next week the labor force will be increased

ALFRED SMITH WAS HANGED AT OCALA

MURDERED NEGRO PREACHER AT MARTIN, IN MARION COUNTY.

Large Crowd Witnessed the Execution—Protested His Innocence to the Very Last.

Special to The Sun.

OCALA, Aug. 10.—Alfred Smith, colored, convicted for the murder of Isaac Draft, a colored preacher, at Martin, in April, was hanged here today in the presence of over two thousand people in the jail yard of the county jail. He protested his innocence to the last contrary to the expectation that he would make a full confession of the crime.

The drop was sprung at 11:30, breaking his neck instantly. Large crowds of negroes were in town, but no disturbance. Smith called for two of the witnesses against him to come forward and let him talk to them, but if they were present they did not respond.

Draft's wife, who was convicted with Smith, is still in jail and has secured a new trial.

OCALA BANNER.

Western States, where hundreds of farmers are ready to remove if suitable locations can be found. Homeseekers' excursions will be operated at frequent intervals from Chicago, Kansas City, St. Louis and other cities, and with a low rate of travel established there is no doubt that the next winter will see more visitors in Florida than was ever known before.

The tourist trade for next season is practically assured, as thousands of inquiries are being received about hotel openings and accommodations, and those hotels of which the opening dates have been announced, especially on the East Coast, have already begun to make reservations of rooms. Coupled with the efforts of the railway companies in the advertising campaign, the work of the real estate agents will prove of value, and the immense tracts of land throughout the State which have recently been offered for sale, are being widely advertised. Taken as a whole, the season of 1909-10 promises to be a record breaker, and as the cold weather begins to creep over the Northern States thousands will turn their faces Southward to Florida.

WAS PITIFUL CASE.

Little Girl of Fifteen Years Sent to State Reform School.

Pearl Davis, a young white girl of Archer, apparently about fifteen years of age, was brought here Tuesday by her parents and given into the custody of Judge Mason to be sent to the State Reform School.

The parents stated to the judge that it was impossible for them to control her, hence they deemed this plan best for she would repeatedly disobey their commands and was entirely beyond their control.

The girl stated that she would return home, but would not stay there, as the judge ordered her confined in the county jail and will have been sent to the State Reformatory.

Benefit of Church.

At the home of Mrs. N. E. Carter, 408 McCumby street, on Wednesday the 11th dinner will be sold by the Ladies Aid Society of the Advent Christian church. These dinners are gotten up by the ladies to defray expenses. Everyone is welcome and none will ever regret paying 25 cents for such a nice dinner which they at ways serve.

Please remember the day and place, and come for your dinner, which will

ALABAMA PROH. LAW IS QUITE AIR TIGHT

Governor Comer Has Approved Most Drastic Measure Ever Enacted By a Legislature.

MONTGOMERY, Ala., Aug. 10.—Governor Comer at 6:30 o'clock yesterday afternoon signed the Carmichael prohibition bill in the presence of Mrs. J. B. Mell, president of the Alabama Division, Woman's Christian Temperance Union, and other women.

An odd coincidence was that Senator Hamburger of Mobile was the only member of the Legislature present. He had gone to the executive office on other business. Senator Hamburger was one of two Senators who voted against the bill and the only Senator who spoke against it.

Under this act it is unlawful to sell or to store any liquids containing more than one-half of one per cent alcohol. Locker clubs are illegal and the possession of a United States internal revenue license shall be considered prima facie evidence of guilt. Truly, Alabama is today a dry State.

The Fuller bill and the Ballard bill are still pending in the House. They are more radical than the Carmichael bill and are designed to aid in the enforcement of the latter. The Fuller bill prohibits any sort of liquor advertising and throws every safeguard around the law. The Ballard bill provides for the impeachment of officers who fail to put the law into effect. Both of these bills will be passed.

The contest over the bill submitting to the people in November an amendment to the constitution excluding liquors from Alabama forever, will come up in the Senate Wednesday. Both sides to the contest claim victory.

Detectives Failed to Appear.

MONTGOMERY, Ala., Aug. 10.—

The Law and Order League detectives who several months ago had warrants against thirty-six alleged violators of the prohibition laws and who were subsequently mobbed because of their activity against the blind tigers, yesterday failed to appear in court when the cases were called for trial. Reports of threats against the detectives have frequently reached the police. The cases were continued until the October term of the court, convictions being impossible without the testimony of these men.

Women on School Boards.

MONTGOMERY, Ala., Aug. 10.—By a close vote in the committee the bill authorizing women to act as advisory members of the school boards in Alabama was reported favorably to the Senate yesterday and went on the calendar. It may come on the third reading today. The bill is fostered by the Alabama Federation of Women's Clubs. It is opposed by some of the ablest members of the Legislature.

Compulsory Education.

MONTGOMERY, Ala., Aug. 10.—The Senate yesterday took up the discussion of compulsory education, Senator Reynolds presenting a bill which he declares will reach the whites but not the negroes. It provides for at least two months of schooling each year for all children from 8 to 14 years of age. A vote probably will be reached today.

Moore's Hotel Has Narrow Escape From Being Burned

HAWTHORN, Aug. 10.—Friday night the nurse girl was arranging the bed-room of Mrs. Y. M. Hulme in Moore's Hotel, when in some way the mosquito net got in the flame of a gas light. In a second the other net and the bedding caught and the room was a flame of fire. Mr. Hulme reached the room in the nick of time, caught up a chemical fire extinguisher in the hall and soon extinguished the flames. In a few minutes more the fire would have been beyond control. The loss was small.

Dr. G. L. Huppert is located at Moore's Hotel for a few days.

Charles Hume of Jacksonville spent Sunday with his brother here.

Miss Deane Stafford, who has been visiting Mrs. J. P. Henry, left yesterday for Alabama, where she will visit

friends for a few days and then return to her home in Mississippi.

W. S. Moore leaves tomorrow for Lookout Mountain and other places of interest in Tennessee. He will be absent about three weeks.

Mrs. J. O. LaFontaine of Jacksonville is visiting her mother, Mrs. Stringfellow, here.

Cotton picking is keeping the farmers and surplus hands busy. The quality is fine and the yield is good so far.

The orange groves in this section which have white fly have developed an abundance of white fringe fungus which seems to attract the eggs of the white fly as soon as deposited on the leaf and destroys them. The fungus appears as white powder on the leaves. The damp weather is conducive to its propagating.

Are Taking Examinations For Teacher's Certificates

Superintendent of Public Instruction W. M. Holliday, is in the city from Tallahassee conducting the examination of applicants for State certificates. The examination is being conducted in the circuit court room.

The examination for primary certificates is being conducted at the High School building by Miss Stephens, assisted by Capt. Larch. The

NOT WORRIED ABOUT THE PROPER BOOKINGS

WILL GET ALL THE FIRST-CLASS
SHOWS WANTED.

Manager McCollum Receiving Letters
from Companies and Managers
in Reference to Dates.

Manager James McCollum of the
Baird Theatre was seen Tuesday by
the reporter in reference to what he
was doing about shows for the opera
house after the "ultimatum" of former
Manager Louis Kalbfeld.

He replied that his utterances were
not worrying him in the least, for
he could get all the attractions he de-
sired, and that if Mr. Kalbfeld did
not want to give up his bookings it
was immaterial, but he was sure of
one thing, and that was that such
"bluff" games as he was trying had
long since played out over this way.

"To commence with," said Manager
McCollum, "there will be one of the
greatest theatrical fights on in the
South the coming season that was
ever known, and plays that are good
ones will be common for good book-
ings like Gainesville, and we shall
have our share.

"I have already received letters
from some of the companies wanting
dates, and I have from three or more
Southern booking agencies letters so-
liciting my aid in giving them busi-
ness, and guaranteeing to keep me
furnished with first-class attractions,
but am doing nothing toward that
end for the present.

"About August 25th will be time
enough to commence to get busy along
the line of shows, and if Mr. Kalb-
feld has not considered ere this and
turned over what he has secured for
Gainesville, I will then see if some
of them do not want to come along
this way, and will also see that a
great many do come this way.

"We have a fine play house, a fine
city, and with the proper shows here
we will have a good show town, and
the coming season at the Baird will
be the heaviest ever known for
Gainesville, with all kinds of shows,
from popular prices to the very best."

O. B. BAILEY STRICKEN TUESDAY EVENING

WAS ON WAY HOME AFTER DAY'S
DUTIES AT STORE.

Dr. DePass Called and Found That
His Right Side Was Paralyzed
from Apoplexy.

While on his way home from his
day's labor Tuesday evening about
7:15, Mr. O. B. Bailey was suddenly
stricken with apoplexy and partial
paralysis in the whole of the right
side. In company with his young
son, Uric, the two were riding their
bicycles, when, nearing the corner of
East Main and Boundary streets, Mr.
Bailey was noticed to reel and fall
from his wheel.

He was picked up and carried into
a nearby house until the arrival of
Dr. M. M. DePass, who took him in
his auto and rushed to his home at
all possible haste, where a hurried ex-
amination was made. It was learn-
ed that he was suffering as above
stated, that he had lost all use of his
right side, although he is perfectly
conscious and the stroke has had lit-
tle effect on his speech.

It was afterwards learned that Dr.
DePass was called earlier in the after-
noon to Mr. Bailey, but nothing furth-
er was thought of the incident until
the call later.

Mr. Bailey is one of the most in-
fluential citizens of the North Gaines-
ville section. For the past few years
he has been in the employ of J. H.
Vidal, the grocer, and his friends are
numbered by the score, all of whom
will be grieved to learn of his acci-
dent and trust for an early recovery.

The Audience Nodded.

He had been trying to start a re-
vival fervor, but the audience was un-
responsive. "O ye of dim hearts," he
cried, "will nothing move you?" "Pass
the hot, boss," answered the gamin,
"and we move immediately."—Florida

RUNAWAY CAUSES MUCH EXCITEMENT AT CHURCH

BREAKS NECK BY ATTEMPTING
TO JUMP WIRE FENCE.

Animal Had Kicked Out of Harness
and Buggy Before Coming
to the Fence.

Mr. Geiger, of near Alachua, lost a
valuable horse on Sunday last by
the animal running away and break-
ing his neck.

He, with his family, were attend-
ing Providence church, located about
two miles southwest of Alachua, and
while they were on the inside the
animal became frightened, broke his
hitching and ran away. The animal
succeeded in breaking the vehicle
loose from himself after a short run,
but in attempting to jump a wire
fence he was caught and entangled,
which threw him on his head and
broke his neck.

The animal was prized very highly
by Mr. Geiger and his family, and
they are at a loss to know what he
became frightened at, for since own-
ing him he had never shown any
signs of fright at anything.

Owing to the occurrence being at
church it naturally drew all of the
congregation from the church, and
also attracting others, drawing a
large crowd to the scene of the acci-
dent.

Fortunately, no one came in con-
tact with the runaway, and no further
damage was done than the loss of the
valuable horse, a buggy and set of
harness.

S.S.S. DRIVES OUT RHEUMATISM

Rheumatism is due to an excess of uric acid, an irritating, inflammatory
accumulation, which gets into the circulation because of weak kidneys,
constipation, indigestion, and other physical irregularities which are usually
considered of no importance. Nothing applied externally can ever reach
the seat of this trouble; the most such treatment can do is soothe the pains
temporarily; while potash and other mineral medicines really add to the
acidity of the blood, and this fluid therefore continually grows more acid
and vitiated. Then instead of nourishing the different muscles and joints,
keeping them in a normally supple and elastic condition, it gradually hardens
and stiffens them by drying up the natural oils and fluids. Rheumatism can
never be cured until the blood is purified. S. S. S. thoroughly cleanses and
renovates the circulation by neutralizing the acids and driving the cause
from the system. It strengthens and invigorates the blood so that instead
of a sour, weak stream, depositing acid and painful corrosive matter in
the muscles, joints and bones, it nourishes the entire body with pure, rich
blood and permanently cures Rheumatism. S. S. S. contains no potash,
alkali or other harmful mineral, but is made entirely of roots, herbs and
barks of great purifying and tonic properties. Book on Rheumatism and
any medical advice free to all who write.

TWO GAMES BALL WILL BE PLAYED

FIRST GAME TO BE CALLED AT
10 O'CLOCK THIS MORNING.

Last Game of the Series Will Be
Played at 3:30 if Weather
At All Permits.

Two big games for the ball team today at the park, and for the first time in a number of years, the first game is to be called at 10 o'clock this morning.

This procedure is taken to assure the players of at least one more game, for it is generally fair up to within about ten minutes of the time for the afternoon game, when Pluvius opens up and lets the water fall to stop the anticipated sport.

The managers of both teams decided it best to play the first game in the forenoon at 10 o'clock, and the second game will be called at 3:30 in the afternoon, the weather permitting. If there is only a light shower the last game will be played anyway, the same as the first day, and fans need have no fear to bridge the weather and proceed to the park.

Both teams are pretty evenly matched, and when it comes to hitting qualities it is conceded that the soldiers have the home lads "skinned" when they make a connection, for their drives are good, long ones, and we really expect some surprises to happen.

Go yourself and tell everyone else to do so, for you will see a real interesting ball game.

Doan's Kidney Pills cure all kidney ills.

People in this vicinity testify to this.

Jos. Eckert, Thompson street, Starke, Fla., says: "I am very glad to recommend Doan's Kidney Pills as they proved of great benefit to me. The passages of the kidney secretions were irregular and when the secretions were allowed to stand they deposited a sediment. My back ached intensely and was very lame and sore, making it hard for me to stoop or lift. I could not rest well and mornings upon arising I was tired and worn out. I at length heard of Doan's Kidney Pills and deciding to give them a trial, I procured a box. This remedy effected a complete cure. The backaches and the lameness disappeared and my kidneys became normal."

A GREAT PUBLICATION.

Florida Edition of The Makers of America Growing in Popularity.

Mr. B. F. Johnson, who is associated with Mr. A. B. Caldwell of Atlanta, Ga., has recently visited Gainesville and vicinity in the interest of the Florida Edition of "The Makers of America."

The first two volumes of this book have been printed, and have attracted very favorable attention from the wisest and most scholarly men of the State. The publishers, the members of the advisory board, and all who are identified with it, are co-operating, endeavoring to make it a standard biographical and historical work.

Volumes I and II, now being distributed, are beautifully illustrated, well printed and substantially bound. The best class of material is used in the preparation of the work; the literary standard is high. Resides containing some forty or fifty valuable articles, giving Florida industrially up to date, the four volumes, when completed, will contain a large number of our leading men, and in many instances fuller sketches of their family history. The portraits in the work are not only finely executed, but are engraved on steel, and, in most cases, are accurate likenesses of the subjects.

Mr. Johnson was both surprised and delighted on his visit to Gainesville to find so many of our leading business men beginning to recognize the value of this work as they have never done before, and who are joining hands with him in endeavoring to have Gainesville and Alachua county as well represented as any part of the State.

The fact that this publication is issued under the patronage of the Florida Historical Society gives it an influential standing that no ordinary publication of this character could hope to obtain.

THE HEYWOOD SISTERS.

Popular Twins Arrived Last Night
One Day Late.

Although they were one day late in arriving, the Heywood Sisters made their appearance for the first time in this city last night to a good crowd at the Air Dome.

Notwithstanding the inclement weather it seems that this is proving a place that is always filled, and it deserves the liberal patronage it is receiving for the managers are doing their utmost to please the people.

The Heywood Sisters are among the best vaudeville artists they have so far secured, and they were well received last night.

Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes," says Martin Boyd of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two thirds of it and my eyes have not given me any trouble since." This salve is for sale by all druggists.

Girl Brutally Murdered As She Entered Cemetery

ROCHESTER, N. Y., Aug. 10.—That Anna Shumaker, the 17-year-old girl whose body was found yesterday morning crudely buried near Holy Sepulcher Cemetery, was choked and beaten to death after being criminally assaulted, is the conclusion based on the autopsy held yesterday by Coroner Henry Kleindienst, but many of the circumstances of the crime, even to the exact place where it was committed, can still be only guessed at.

Although the authorities believe they have a clue to the murderer in a broken spade found near the scene of the dead, the question of who is guilty of the crime is a mystery.

For a time suspicion was directed toward an employe of St. Bernard's Seminary, which is near the cemetery, but the seminary authorities disposed of this in a statement yesterday. Some of the police assert that they have clues that indicate that the guilty person is not a tramp; that he is probably now in this city and that an arrest is probable in a day or two.

Evidence of Brutality.

The broken spade was taken from a pig pen at St. Bernard's and its use lends plausibility to the belief that the murderer was not unfamiliar with the locality. It is thought that probably at twilight, or after dark, he went after the spade, having dragged

the body into the shrubbery, and with such care as was possible in the darkness he buried the girl in a shallow trench, covering it with earth and leaves.

The autopsy emphasizes the brutality of the crime. The body was in a pitiable condition, the head, face, chest and arms and hands were covered with bruises and scratches; the bone that supports the tongue, the hyoid, was fractured, when the assailant choked his victim; the body was covered with blood, and the hair was full of dirt and leaves, indicating that the body was dragged some distance, probably by the feet.

Girl's Desperate Fight.

Part of the clothing had been removed. It is apparent that the girl, who was of vigorous physique, made a desperate struggle to save her honor and her life.

The inquest into the death will begin today. In the meantime the city, county and town authorities are bending every effort to apprehend the murderer.

The young woman left her home Saturday morning to place flowers in the family cemetery, and when she did not return at night her family became greatly alarmed. A search was instituted, which was kept up until the finding of her body yesterday by two officers, a hundred feet outside of the cemetery limits.

Melrose People Enjoy Excursion on Lake Santa Fe

MELROSE, Aug. 10.—Mr. and Mrs. C. P. Huffman gave a very enjoyable launch party in honor of Prof. Geo. C. Looney and wife on Saturday afternoon in the Dixie. The waves of Lake Santa Fe were just rough enough to give a good swing to the boat and once in a while a big wave would throw the spray on board, causing much amusement in the endeavor to dodge it, generally too late. When Seminole Island was reached all went ashore to partake of delicious ice cream and cake and to ramble around. The extremely fine cornfield of Mr. B. Chamberlain was much admired. On some of the stalks the first ear was 10 feet above the ground and seemed to be over 18 inches long. On the trip home the Dixie kept on the north side and avoided the rough water. Altogether it was a very pleasant and successful affair.

Mr. and Mrs. von Noszky will leave

for Wrightsville Beach, N. C., on Wednesday.

L. C. Hobbs, J. D. Lamoyes and A. Murphy of Indianapolis were registered at the Huffman House last week for several days. They are interested in real estate in Florida and came to confer with R. A. Humphreys of Greenville, N. C., who is their representative here.

Miss B. Wimberly of Highland was the guest of Miss Clara Belle Mack last week.

The "Carolina," the new motor boat of T. S. McManus, made her first trip to Melrose on Saturday.

Miss Corinne Allen of Georgia is visiting Miss Lillian Yearwood.

L. M. Baldwin left yesterday for a trip North.

Mrs. C. H. Rogers and daughter of Live Oak are visiting her parents, Mr. and Mrs. C. P. Huffman.

The Poor Man's Gym.

"Would you mind telling me," asked Mrs. Bourdalot, glancing admiringly at the athletic shoulders of the prospective boarder, "how do you keep in such splendid physical condition?"

"I go through a few gymnastic exercises every morning," confessed the young man, flushing.

"Well, I'm sorry, but we can't board you. I've had the bathroom monopolized that way before."—Kansas City Times

PAM-ALA

is unlike any other medicine ever used for CHILLS and FEVER.

Mrs. T. J. McEvoy, of the New Orleans Item, writes: "Feb. 15, 1909, I have suffered for years from Chills and Fever. I tried a sample of 'PAM-ALA' as I was suffering with Malaria. After taking four doses the fever and ague left me and I felt like a new woman." "Pam-ala" will make MALARIA a thing of the past.

Contains no Quinine in any form. Sold by druggists. \$1.00 bottles.

MRS. JOHNSON KNOWS.

She Says That Parisian Sage is the Only Real Hair Tonic.

Parisian Sage is the quick acting hair grower that can now be obtained in America and that is guaranteed by W. M. Johnson to cure dandruff, stop falling hair and itching scalp in two weeks or money back.

Mrs. Johnson says:

"Parisian Sage is the only hair tonic that ever benefited my hair. I began and used it daily for a while, afterwards I used it according to directions. I am absolutely positive that it will thoroughly cleanse the scalp and hair, stop irritation, eradicate dandruff, stimulate the growth of the hair, prevent baldness, and make the hair soft and silky."—Mrs. Sue Johnson, 229 4th street, Frankfort, Ky.

Parisian Sage is a most delicately perfumed hair dressing and has not a particle of stickiness or greasiness in it.

Women who desire beautiful and luxuriant hair that will attract and fascinate, should use Parisian Sage. Leading druggists everywhere sell it. W. M. Johnson sells it in Gainesville for 50 cents a large bottle, and guarantees it to give satisfaction, or money back. The girl with the auburn hair is on every package. Made in America by Giroux Mfg. Co., Buffalo, N. Y.

The Tampa Times registers a vigorous kick over the transfer of Weather Observer Scarr from that station to New York, claiming that every time they get an observer well trained there, so that he knows all the peculiarities of the weather and how to get the best results, he is moved to some bigger station. Mr. Scarr is one of the ablest men in the service and well deserved promotion.

Editor A. P. Jordan, State pure food inspector, says in his Punta Gorda Herald: "No serious or flagrant violations of the Florida pure food law have yet been discovered. Most of the violations consist in the use on the labels of smaller letters than the law requires. There are many instances of the omission from the labels of old goods of words prescribed by the law, but the dealers in general are trying to supply the omissions. These occur on goods that were on hand before the law was enacted."

It is estimated that half a million dollars is annually spent by Florida parents on their children who are sent to schools outside the State to be educated. This is all wrong, and there is no excuse for it. The University of Florida for young men, and the Florida Female College at Tallahassee for young women, not to mention the several private colleges, afford equally as good opportunity for educating your sons and daughters as can be obtained anywhere in the United States, and it is your patriotic duty to patronize them.

Some people think our first parents were cursed in being compelled to work. In reality it was the best thing for them as it is for any person. It is idleness, not work, that is a curse. Take any number of people compelled by circumstances to enforced idleness and see how they clamor for work. If Adam had not been compelled by circumstances to labor for a living he probably would have got into fresh mischief, for idleness breeds discontent and a multitude of other evils. But work strengthens the body and mind, supports the family, brings contentment and an increased capacity for the pleasures of life. And besides all this the man who honestly toils knows that he is contributing to the prosperity of the place in which he lives and of society in general.

POLITICAL UNREST.

Once more there are signs of that rumbling under the surface in Europe which may indicate one of its periodic political upheavals, says The Wall Street Journal. The worker is restless and dissatisfied in Spain, where his lot is not a happy one, and in sober Sweden, where conditions should be fairly tolerable, there is a restlessness of that wide-spread character which seems to come about once every half century and threaten to change the political face of the world.

Fortunately in the problem there is one constant among many variables. Human nature is always the same. As they say in France, the more you change it the more it is the same thing. It swings just about so far in one direction, and the socialist weeps tears of pride and joy and says that the age of brotherhood has arrived. It must be some undesirable kind of brotherhood, constituting the admission to a very quarrelsome family. It can hardly be thought that the young man feels particularly brotherly when the girl promises to be a sister to him.

There comes a revulsion and a big swing in the opposite direction. The extravagances of the French Revolution are followed by the ardent militarism of the Napoleonic era. The German revolutionary period of 1848 breeds some good men for the world's work and the best of them is Bismarck. Military Germany rises on the ashes of that struggle which in its turn was the swing of the pendulum from the exhausted aristocracy of forty years before.

Out of it all rose only the assurance of an old truth, where everybody was seeking a new thing. This will be the result in Europe. The labor leader in office develops into a Right Honorable John Burns, a thoroughly useful and conservative public servant. Experiments in popular government are not really dangerous, and nearly always bring about a revulsion of feeling if they are carried far enough. No doubt the postal strike in France for a day or two had its revolutionary aspect. The insane rioting in Catalonia is already looking less formidable than it did. It will probably gain some concession for the people of Spain, who are overtaxed and badly governed, largely through their own fault, and ten years hence Spain will probably have swung to the other extreme.

It should give the investor little alarm. Consols are unchanged or a little firmer on the week. Spanish 4s have recovered part of a decline which did not extend much beyond three points. Other great national securities are indicating no serious barometrical pressure. The incurable old world will probably run along for an indefinite time in the old way.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

It is evident that the British government in deciding to tax the unearned increment has for its main object the breaking up of large estates which have little productive value into small holdings that will be put to tillage. The land laws of England are a survival of feudal times and they have retarded the progress of agriculture and of prosperity generally. In the building up of vast estates the yeoman farmer, once the very backbone of the country, has well nigh disappeared and many thousands of acres have been withdrawn and converted into parks and hunting grounds which, however beautiful, do not contribute to the sustenance of the people. That is a very serious matter in a country of such limited area and a steadily growing population. Taxing the unearned increment therefore promises to work a land revolution.

The evil results of President Roosevelt's action in waiving the sentence of dismissal pronounced against certain West Point cadets is made manifest in the recent hazing of Cadet Sutton and the events which followed it. The Superintendent of the Military Academy and the officers in the War Department urged Mr. Roosevelt not to exercise executive clemency at the time, but he thought the hazing of which the cadets had been found guilty amounted to little more than boyish pranks and that dismissal was too severe a punishment. The recent hazing of young Sutton is held by the officers to be the direct result of that clemency, for the cadets got the idea that provided they could exert sufficient political influence they could disregard the law and the regulations with impunity.

The popular little actress, Mabel Paige, and her excellent company, who have been delighting the amusement-loving public at the Orpheum Theatre in Jacksonville during the past several months, will go on the road about September 1st. Miss Paige has played to crowded houses in Jacksonville at nearly every performance during the summer months, and on many occasions it was impossible to obtain a seat in the theatre, so popular has she become in the metropolis. It is to be hoped that she will favor Gainesville with a date in her itinerary the coming season.

The Amazon River.

Although not the largest or longest river, the Amazon is the most wonderful river in the world, with a mouth 150 miles in width and with a force of water that repels or at least over-comes the ocean to a distance of more than fifty leagues. Yet in spite of the weight of the river the tide makes its influence felt for 500 miles from the coast. The easterly trade winds blow almost invariably upward, so as to be ready to help the vessel against the adverse currents.

THE FIRST ALMANACS.

They Attempted to Foretell Men's Destiny From the Stars.

The almanac, properly so called in its origin, is not merely a device for keeping people in mind of the progress of the year. It is an attempt to show what destiny has in store for us as indicated by the position of the stars in any particular year, and as, according to astrological lore, the destinies of men are ruled by the different aspects of the planets, so also the human body is subject to the influence of the constellations through which the sun appears to pass in his yearly course. A French almanac of 1610 gives a diagram of the human body surrounded by all the signs of the zodiac and indicates the various organs and members over which these signs have power, and this for a guide pour les sages, or to show at what period blood may be let with safety. But the same almanac also gives directions sensible enough for the avoidance of the plague which would not be found fault with by a modern fashionable physician:

Who would keep his body in health
And resist the infection of the plague,
Let him seek joy and sadness fly,
Avoid places where infections abound
And cherish joyous company.

A few examples exist of almanacs of this character before the invention of printing, although none, it is believed, earlier than the twelfth century. But some of the earliest specimens of printing are black printed German sheet almanacs, which are chiefly concerned about blood letting.—Westminster Gazette.

Wasted Time.

Mrs. Newrich was growing accustomed to power. She enjoyed it and was irritated when any one presumed to differ from her in opinion. When the sailing party of which she had been a member landed on the shores of the lake rain soaked and frightened, Mrs. Newrich was the only one who cared to talk.

"It could all have been avoided if that captain had done as I told him," she said between the chattering of her teeth as the party stood huddled under a small shelter.

"When I saw that cloud coming from that corner of the lake I said to him, 'I think you'd better make straight for home and not spend any more time tacking,' but he paid no more attention than as if I hadn't spoken!"—Youth's Companion.

Active at 87.

CUTICURA CURED
CHIEF OF POLICE

Canadian Officer Poisoned by Weeds
—Eczema Developed and Legs
Became Scaly—Ankles were Very
Sore and Itchy—For Weeks He
Could Not Wear Shoes.

FREED FROM ITCHING
BY CUTICURA REMEDIES

"I have been successfully cured of dry eczema. I was inspecting the removal of noxious weeds, it being part of my duty, from the edge of a river and was constantly in the dust from the weeds. At night I shook out my trousers and cleansed my limbs, but felt a prickly sensation. I paid no attention to it for two years, but I noticed a scum on my legs like fish scales. I could scrape it off, and yet I did not attend to it until it came to be too itchy and sore and began getting two running sores. My ankles were all sore and scabby and I could not wear shoes. I had to use carpet and felt slippers for weeks. I was then on particular police duty and was compelled to be on duty. I got a cake of the Cuticura Soap and some Cuticura Ointment. In less than ten days I could put on my boots and in less than three weeks, though on duty all the time, I was free from the confounded itching. I tell you frankly that Cuticura saved me from what the doctors called a bad leg. Capt. George P. Bliss, Chief of Police, Morris, Manitoba, Mar. 20, 1907, and Sept. 24, 1908."

For Baby's Bath
Cuticura Soap has Become the
Mothers' Favorite.

Warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, most soothing of emollients, preserve, purify and beautify the skin, scalp, hair and hands of infants and children and, assisted by mild doses of Cuticura Pills, afford the most speedy, grateful and comforting treatment for torturing, disfiguring eczemas, rashes and every form of itching, scaly, crusted humor of the skin and scalp. Guaranteed absolutely pure.

Cuticura Remedies are sold throughout the world. Depots: London, 27, Charterhouse St.; Paris, 5, Rue de la Paix; Australia, R. Towns & Co., Sydney; So. Africa, Lennan, Ltd., Cape Town, etc.; U.S.A., Foster Drug & Chem. Corp., Sole Props., Boston.

The First Postage Stamp.

The black penny postage stamp of 1840, the first stamp ever issued, was distinctly unpopular and gave place to a red one after a year's existence. Great Britain was the first country in the world to use postage stamps, and the English schoolboy of the period seems to have regarded them as a nuisance rather than a national benefit. "Have you tried the stamps yet?" wrote one of them to his sister in the year 1840. "I think they are very absurd and troublesome. I don't fancy making my mouth a glue pot, although, to be sure, you have the satisfaction of kissing the back of her gracious majesty the queen. This is, however, I should say, the greatest insult the present ministry could have offered the queen."—London T. P.'s Weekly.

Fields and Orchards of France.

From Avignon to Lyons the railroad runs through a rich country, the fruit trees covered with blossoms and the forests assuming their robes of green, altogether making a picture beautiful to look upon. From Lyons to Paris the orchards, the vineyards and the growing grain delight the eye of the traveler from oriental deserts and remind him of Macaulay's poem: Now let there be the merry sound of music and of dance Through thy cornfields green and sunny vines, oh, pleasant land of France! For truly it is a pleasant land.—Paris Letter to Denver Post.

A Weakling

Always There.

Mrs. Binks (reading)—John, I read where a scientific expedition explored an extinct crater 2000 feet deep and at the bottom they found the bones of a prehistoric woman. How do you account for it? Mr. Binks—Oh, that's easily accounted for. Martha. You know a woman is at the bottom of everything.—New York Globe.

Baby Morphine Fiends

Getting Ready For a Fresh Start.

Gwendolyn de Courtenay, the handsomest society favorite, was nervously agitated. Even a blind baggage car could see that. She paced up and down in front of the large cheval glass in her room. Evidently she was greatly aggrieved over something. Finally her high strung nerves got churned up to such a pitch that she lost control over herself and began to clutch and tear wildly at her hair, pulling it out in large handfuls.

Your sympathetic nature is around and you cry: "The poor woman is temporarily insane. Why doesn't some one stop her before she does herself bodily injury? She must be in terrible mental agony to stand the pain of pulling her hair out by the roots."

But hush! Be not too lavish with your sympathy, friend. Up to now Gwendolyn has pulled off only fourteen pounds of puffs, three miles of interlocking switches and a few detachable curls. She has some distance to go yet before she touches the real cross your heart hair. Gwendolyn is merely distracted because her maid cannot get her floating hirsute equipment on in becoming array. She is simply getting ready for a fresh start.—Puck.

Seeds as Aeroplanes.

It is strange that man has been so long in learning to fly. Nature in the seed has for eons shown him a good working aeroplane. The seed of the silver maple and the ash often fly in the summer forty or fifty yards. The seed's wing is an extension of the pod. When the seed breaks loose from its bough the wing whirls rapidly round the body as an axle, its front edge striking the air higher than the rest of its surface and thus producing air pressure in an upward direction that carries the tiny aeroplane on and up in Wright-like flight. The hidden seed clusters show an aeroplane of tremendous strength. The seeds hang on a single stem from the center of one large wing. When this seed aeroplane sets forth the wing revolves and points upward, bearing onward its weight of seeds with a power greater than any bird puts forth. The box elder, the pine and the catalpa are other trees whose existence is perpetuated by the aeronautical skill of their little seeds.—New York Press.

Horses in Pantaloon.

"Equine sunbonnets are very well," said a veterinary. "but what would you say to equine trousers? You'll see them in Guayaquil. There the mosquitoes and greenhead flies are so thick that horses and donkeys, unless their legs are cased in cloth, become unmanageable with the pain. Guayaquil is in Ecuador. It is directly under the equator. The heat there is insufferable. Up and down its narrow and foul smelling streets in bluish clouds of buzzing insects walk horses and donkeys in sunbonnets and pantaloon."—New Orleans Times-Democrat.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

Bonner's Famous Advertisement.
When the New York Ledger was wavering on the brink of failure Robert Bonner, the proprietor, sent to the New York Herald a brief advertisement, to be set up in a single line. So grotesque was Mr. Bonner's handwriting that the advertising manager interpreted the directions as ordering that the copy be run in full page, which instructions he obeyed, though marveling greatly. The Herald came out the next morning with one whole page devoted to the crisp adjuration to read the Ledger's new story. The effect upon Mr. Bonner was almost fatal, first from chagrin at the thought of the possible bill, then from amazement as subscriptions began to pour in and finally from satisfaction as they continued to flood the office until the fortune of the publication was made. The novel thought accidental device had struck the public's fancy. Mr. Bonner was hailed as the pioneer of a new and daring theory of exploitation, and the advertisement gained tenfold currency by being commented upon as a feature of the news.—Collier's.

Trumpeting Ancient German Choral.

The most notable ornament of Rothenburg is the rathaus, which no artist who visits the town fails to sketch. It is of a most imposing beauty, consisting of an older gothic building dating back to the middle of the thirteenth century, with an elaborate renaissance facade. It was from its darkling dungeons that many of the instruments of torture in the museum at Nuremberg came, for Rothenburg was not tender in its treatment of prisoners. The earlier building has a high square tower crowned with a bell cupola, where thrice a week the choir of St. Jakob's, a reverend church lying within its shadow, painfully climbs, armed with trumpets and other musical instruments. The sweet Lutheran chorale is repeated four times as the musicians respectively face the four points of the compass, and the ceremony, so in keeping with the quaint, old time life of the town, is one of the visitor's unforgettable memories of Rothenburg.—Rothenburg (Bavaria) Letter to Vogue.

He Was Superstitious.

He was a big, hearty workingman, and when a spare, thin little man entered the tram car, stumbled and sat upon him he said in reply to the little man's apologies:

"Don't trouble, sir; it's all right. There's no 'arm done."

When we saw the big man a week later we were shocked at the change in him. He seemed to have shrunk to half his former bulk.

"Why, whatever's the matter?" we exclaimed.

"You remember that little man who sat on me in the train last week, sir?"

"Yes."

"Well, it's all through 'im 'im wastin' away like this!"

"Preserve us!" we cried. "How? Why?"

The shrunken giant wrung his hands in despair.

"I found out next day," he groaned, "that 'e was the corner. An 'e sat on me; I'm superstitious, an' it's lookin' ahead I am. O Lor!"—London Mail.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared. Sold by all druggists.

A Curious Receipt.
Hanover's registrar discovered a very curious document some time ago as he was looking through a bundle of papers that date back to the eighteenth century. The document is a receipt—probably the only one of its kind in existence—which was given to a Hanoverian captain by a canon of Duisburg during the Seven Years' war "I, the undersigned," it reads, "hereby acknowledge that I have received fifty blows of a stick, which were inflicted upon me by a Lieutenant of Captain B.'s regiment as a punishment for the stupid and frivolous calumnies which I have uttered in regard to the regiment of chasseurs. For my imprudent words I now admit that I am profoundly sorry. I received my punishment lying on a heap of straw and held by two men, and I bear testimony to the fact that the officer struck me as vigorously as he could with a stick that was as thick as my finger. "In proper form and with due gratitude I sign this receipt and avow that all therein is true."

Hard to Kill.

A crocodile's tenacity of life is most remarkable. "I remember one time," says a traveler in India, "I was, with a shooting party on the Ganges when the natives brought in a six foot crocodile. They hoped some one would want to buy it, but no one did, so it was determined to kill the creature. It was hauled out of the tank and tied to a tree. Bullets from a small rifle or an ordinary gun seemed only to irritate the saurian, nor did he seem to care very much when a native thrust a spear down his throat. Finally they were obliged to dispatch him with axes. Even then the tail thrashed about for no little time after."

Cured Hay Fever and Summer Cold.

A. S. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

Not That Kind.

"Once in a Bible lesson," said a Sunday school teacher, "I repeated the text, 'Arise and take the young child and his mother and flee into Egypt.' And then I showed the children a large picture that illustrated the text in bright colors.

"The children studied this picture eagerly. Then they all frowned; all looked rather disappointed. Finally a little girl said:

"Teacher, where is the flea?"

Where to Sing.

"I will sing something restful to you, dear," said a lady to her morose husband. "Shall I sing 'Far, Far Away'?"

"I wish you would," was the bitter reply. "It would save the trouble of apologizing to the neighbors."

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take. Sold by all druggists.

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

TWO PIANOS AND A DIAMOND RING

Total Cash Value, \$1,000.00

To Be Given Away by the Merchants and The Sun to Citizens of Alachua County!

Each Section Gets Prizes!

Contest to Close August 18, 1909

Realizing that all should share alike in the distribution, leading business houses have joined in the combination to give away Two Handsome Pianos and One Diamond Ring to residents of Alachua county in three different sections. These progressive firms will give One Vote for each penny spent with them.

In the event of a tie for any prize offered, a prize similar in all respects there-to will be given each of those tying.

THE A. R. HARPER PIANO CO. of Jacksonville, from whom the pianos for this contest were purchased, have agreed to offer extra prizes as follows: To the first five candidates in each district, excepting the winners of the capital prizes in the said districts, one certificate each for \$100.00 which will be redeemable in cash as a payment on any piano handled by them—the Everett, Harvard, Dayton or John Church Pianos. In addition to this they will give a certificate good for \$25 to all other contestants in the race, and will make special arrangements with anyone to take care of their paper on all purchases of instruments at the cash price.

The Gainesville Section Will embrace the city and suburbs and be confined to a radius of four miles in each direction. The winner in this district will be awarded a HANDSOME DIAMOND RING.

Eastern and Southern Section Will comprise territory from Fairbanks all points east and from Rochelle all points south—Waldo, Hawthorn, Island Grove, Campville, Micanopy, Lake View, Tacoma and all points along line of T. & J. Ry. ONE PIANO.

Western and Northern Section Will comprise all stations from Hague to High Springs, Trenton, Wannee, Wilcox, Bell, Newberry, Jonesville, Archer and all settlements covered by this area. ONE PIANO.

How and Where to Get Votes

The following merchants will give one vote for every cent paid into their establishments for goods which they handle:

Hon. W. M. Holloway, the genial State school superintendent, was a guest for a few days at Hotel Worthington and while here made several visits to his friends in the country.

The family of Hon. W. J. Hatcher spent last week here. Mrs. Hatcher will spend the winter at her old home in Lake City to send the children to school there.

The people of Worthington Springs will have to get busy now and erect a school building and have a school of their own. The population is rapidly increasing, having grown within a year from three school students to near thirty.

Mr. and Mrs. F. Lee Porter spent Thursday here, the guests of her father, W. J. Hatcher, at Hotel Worthington.

F. C. Crown of Rocky Point drove over yesterday for a week's stay here.

Mr. Ware, who has recently finished painting the Hatcher building here, has accepted the contract for paving the streets at Lake Butler, to be begun at an early date.

J. M. Haile and family have returned to their home after a pleasant week spent here.

Mr. and Mrs. Vickers and family and W. O. Sheppard of Lake City spent Sunday here.

Capt. W. E. Williams and family of St. Petersburg are spending his vacation here.

Miss Mabel Lamb was the guest of Mrs. J. P. Tomlinson of Lake Butler Saturday.

E. B. Duncan of Ocala was the guest of I. F. Lamb at Hotel Worthington last Friday.

The Farmers' Union will hold a picnic here on the 18th inst. All are invited to attend. Several prominent speakers will entertain the crowd. This is the most beautiful picnicking grounds in the State. Nature seems to have fashioned it specially to give pleasure and comfort for that purpose.

The Rev. G. W. Ware of this place left Sunday for High Springs, where he goes to carry on a series of protracted meetings.

Disagreeable at Home.

Lots of men and women who are agreeable with others, get "cranky" at home. It's not disposition—it's the liver. If you find in yourself that you feel cross around the house, little things worry you, just buy a bottle of Ballard's Herbine and put your liver in shape. You and everybody around you will feel better for it. Price 50 cents per bottle. Sold by W. M. Johnson.

Was Bound Over.

Ned Robinson, the negro charged with stealing and butchering a cow belonging to F. M. Ramsey, was Tuesday bound over to await the action of the circuit court.

W. S. Broome returned yesterday from Daytona Beach.

New candy, chocolates, bonbons, caramels, etc. Saunders & Earle.

R. N. Owens, who has been absent for the past three months in Macon, Ga., has returned to the city.

Fancy drivers—pairs and singles—at the new stables of Oliver & Kite. Come and see us, whether you want to buy or not.

The genial Frank Clarkson of Jacksonville, who numbers his Gainesville friends by the score, is registered at the Brown House.

Col. J. N. Stripling, one of the leading attorneys of Jacksonville, is in the city on legal business. He is registered at the Brown House.

Miss Nell DaCosta is among the army of Gainesvillians who are now pending their vacation at other points. She is at present in Swannanoa, N. C., with a party of friends.

When the digestion is all right, the action of the bowels regular, there is a natural craving and relish for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. COUNCIL HAD SHORT SESSION MONDAY NIGHT

OWEN LLOYD SIDEWALK MATTER FINALLY ADJUSTED.

Adjourn to Meet Again on Next Monday Evening, When "Dr." Goodwin Will Spring Surprise.

Council met in regular adjourned session, with President Broome, Aldermen Burnett, Colclough, Goodwin, Graves, Phifer and Pound, and Clerk Dell present.

Alderman Burnett moved that the occupation tax ordinance be referred back to the city attorney. Carried.

Alderman Pound moved to reconsider the vote in reference to the Owen Lloyd sidewalk, which was done, and he was allowed to continue the walk to completion as begun.

Alderman Goodwin moved to receive and file the written opinion of city attorney in reference to buying supplies; which was carried.

Alderman Goodwin moved to reconsider the vote on paying bills of Baird Hardware Company. All members voted aye except Alderman Burnett, who stated that he did not think they had the right to reconsider.

Alderman Pound moved that the ordinance committee bring in an ordinance requiring persons building or having built sidewalks to notify the street committee and get their consent. Carried.

Alderman Goodwin moved an adjournment until Monday, Aug. 16th, at 8 p. m. Carried.

At this next meeting a surprise is expected from "Doc" Goodwin that will be novel and entertaining, for he has it all framed and will present it to the honorable body for consideration. In his "peace and morals" ordinance he says "take 'em all in."
